street car. Home 5410.

Home phone 2127.

First know what you want to say. Then say it. Use simple words. Make your meaning absolutely clear. Leave nothing to the reader's imagination—as this want ad does:

FOR RENT-1193 Jones street, 6room house, \$25.00. Address OWNER, care News-Times.

This advertiser was "penny wise and pound foolish." He gave so little information it is safe to say he never had an answer.

What about the condition of the house? Plenty of closets? Lighting? Heating? Has the house an attic? Cellar? Or both? Is there a rear yard? Front yard? Rear porch? Front porch? And many other points? No one but the owner knows. Surely one should not expect results from such meager informa-

And there's not one word about car line. Even though some may know, there are others who don't. And strangers are arriving daily, some of whom may stay for good. Now, read this for an example of how to write a want ad that will bring replies:

FOR RENT-1183 Jones street, 6room house in splendid condition, with large closet in every living room and in the second-floor hall, one block from car line; electricity and gas; steam heat; modern tile bathroom with large tub and fine shower with curtain; roomy kitchen with modern gas stove practically new; large cement cellar; fairsized front yard, 75-foot rear yard; large front and rear porch. Get key next door; \$25.00 month. Address OWNER, care News-Times.

Here is information from which we form a mental picture of this house. If we were seeking one in such a location this want ad would send us scurrying out there for fear some one would get

ahead of us. What if this want ad does cost a little more, it is bound to pay by the inquiries it will bringand inquiries from prospective tenants are what this advertiser wants or he wouldn't advertise. This applies to the writing of all

want ads, whether it is a house you wish to rent, a business you wish to sell, or a farm you wish to buy. Give ALL the information you would want WERE YOU THE

READER. Then bring it to The News-Times, or
